

# About us

At **UNIVA HOLDINGS**, we believe in creating sustainable growth through innovation, trust, and long-term partnerships. As a diversified business group, we focus on delivering value across multiple industries including finance, investments, technology, real estate, and global trade.

Our mission is to empower businesses and individuals by providing strategic solutions that foster financial growth, technological advancement, and economic opportunities worldwide.

We operate with integrity, professionalism, and a vision to build a strong foundation for the future. With a team of experts and a commitment to excellence, UNIVA HOLDINGS continues to expand its presence while ensuring value creation for stakeholders, partners, and communities.

# WHAT IS CRYPTO TRADING

**Crypto Trading** is the process of buying, selling, or exchanging cryptocurrencies (like Bitcoin, Ethereum, or other digital coins) in order to make a profit. Just like stock trading, it involves speculating on the price movements of digital assets in the market.

Unlike traditional currencies, cryptocurrencies are **decentralized** and run on blockchain technology, which makes transactions transparent, secure, and borderless.

# CRYPTO WALLET ONLINE

An **online crypto wallet** (also called a **web wallet** or **hot wallet**) is a digital tool that lets you **store, send, and receive cryptocurrencies** using the internet. Instead of keeping coins physically, it stores the **private keys** (your access codes) that allow you to manage your crypto assets.

## Web Wallets

Accessed via browser (e.g., MetaMask, Coinbase Wallet).

Easy to use but more vulnerable to hacks.

## Mobile Wallets

Downloaded as apps (e.g., Trust Wallet, Binance Wallet).
